Interested in how people learn science...

I'd like you to jot down (on the worksheets) three or four items about you... anything you think might interest others

1) I'm a chello

2)

3)

4)

**Now share your list with your neighbour
for a few minutes. Meet a classmate.**

(Don't worry, you will not have to share with everyone)

We all do it sometimes, don't we?

Again on the worksheets, I'd like you to jot down three or four ideas about your expectations for Physics 2090Y....

Are your expectations the same as theirs?

**Now here are some of my ideas
about my expectations for Physics 2090Y....**

- a) elicits students' existing notions in writing and in groups.**
- b) presents *disequilibrating experiences* which prompt reexaminations and reevaluations of existing notions.**
- c) engages students in carefully designed collaborative activities.**
- d) leads students to constructing their own new notions and improved conceptual understanding. “**

Your five tasks before the next class:

1) Get your “trentu.ca” accounts activated and complete the myLearningSystem demographics survey.

nb: If you wish to use another e-mail address, set your “trentu.ca” e-mail to be automatically forwarded.
