Interested in how people learn science...

I would like you to jot down (on the worksheets) three or four ideas about what type of person would get the most out of this class.

1) *Intrepreneur*

2)

3)

4)

**Now share your list of ideas
with your neighbour for a few minutes.**

Do they have different ideas from you?

Your name here

Who would you like to be?

Your name here

Who would you like to be?

Write that name on your fancy new journal.

I would like you to jot down (on the worksheets) three or four items about you... anything you think might interest others

1) *I'm a rebel*

2)

3)

4)

**Now share your list (and your name)
with your neighbour for a few minutes.
Meet a classmate.**

(Don't worry, you will not have to share with everyone)

We all do it sometimes, don't we?

Again on the worksheets, I'd like you to jot down three or four ideas about your expectations for the course....

**Now share your list with your neighbour
for a few minutes.**

Are your expectations the same as theirs?

**Now here are some of my ideas
about my expectations for the course....**

- a) elicits students' existing notions in writing and in groups.**
- b) presents *disequilibrating experiences* which prompt reexaminations and reevaluations of existing notions.**
- c) engages students in carefully designed collaborative activities.**
- d) leads students to constructing their own new notions and improved conceptual understanding. “**
